

Products : **365 HotelBot-W**

## Large Capacity & Flexibility

The robot can deliver to up to 4 rooms in one go. Its flexible loading capacity allows users to adjust the cabin space according to their needs and various delivery scenarios. The cabin features 2 levels, each with a main storage area that can be divided into 2 compartments.

# 3D Intelligent Obstacle Avoidance

Autonomous navigation and AI technology to plan the best route and it can even take an elevator on its own.

# HD Touch Screen

Equipped with an 11.6-inch HD touchscreen, it serves as an intelligent advertising display.

# IoT System

Automatically rides elevators,  
connects to smart speakers,  
and integrates with call bells.

# Specifications : **365HotelBot-W**

Specifications	
Product Size	450mm x 550mm x 1080mm
Weight	48KG
No. of Cabins	2 / 3 / 4
Cabin Size	390mm x 385mm x 300mm
Cabin Load Capacity	20KG (5KG/layer, with bottom layer at 10KG)
Screen Size	11.6 inch 1080P
Speed	Max. 0.8 m/s
Battery Life	9 - 12 Hours (according to working conditions)
Standby Time	Max. 15 Hours
Charging Mode	Auto / Manual
Charging Time	6.5 Hours
Total Load	40KG
Network Support	WiFi supports 2.4GHz/5GHz
Positioning & Navigation	Laser, IMU, Encoder Multi-Sensor Positioning & Navigation
Obstacle Avoidance	Dual Stereo Vision, Anti-Collision Strips
Sensors	LiDAR, Depth Vision Sensor & Touch Sensor
Maximum Slope Angle	≤5°
